Brand Logo

**The heart, soul, and center
of our brand identity.**

Our logo is how our customers tell us apart from a crowded industry. It's a promise of quality service, consistency of experience, and reliability.

As such, it is vital that our logo is presented correctly in every execution. This section covers these guidelines in detail.

Any use of our brand logo outside of or conflicting with the contents of this section will be considered unauthorized.

Primary Lockup

Monkey Sports®

The brand logo identifies the MonkeySports brand as a whole. Use this logo to represent individual locations, products, merchandise, and operations.

This logo is a carefully created piece of locked artwork that should not be altered in any way.

Our icon and wordmark should always be presented together, as one unit. This ensures consistency in brand representation.

Color Variations

Each brand logo lockup has several color variations for use on different background types, tones, and colors.

When in doubt, use the most legible version of the logo for the available background.

For printed executions, special care should be given to ensure logo legibility on the final media or material used.

Only in the case of limited colors for print, should the Single Color versions be used.

Wordmark: White

007

Location-Specific Marks

If desired, each individual store may use a location-specific mark for merchandise and marketing.

Special care must be given to typography and spacing in order to remain consistent across the brand (and world).

Location-specific marks may not be used on brand-level packaging and stationery. No other version of the lockup may be combined with a location typeset.

LOCKUP ASSEMBLY

Using the same format as the primary lockup, the location text is centered under the wordmark, with a midway horizontal line on either side of the location written out {CITY},{TWO-LETTER ABBREVIATED STATE or FULLY WRITTEN OUT COUNTRY (if outside of U.S.)}. Horizontal lines may be removed if characters do not allow for them (see Greenwood Village, CO on next page).

Visualized Clear Space

010

Clear Space

Clear space, or negative space, is the area that surrounds the logo that is completely clear of any other graphical element. Clear space helps the logo stand out from the rest of the elements on the page and ensures legibility, even at small sizes.

As a general rule, the more clear, or negative, space around the logo, the better.

At a minimum, there should be clear space equal to the height of the 'm,' portion of the icon on all four sides of the logo. Using an element from the logo as a unit of measurement ensures enough clear space at any size.

Grey area represents the minimum required clearspace.

011

As Signage

When used on the exterior of the building (and not an extension of or separate from), manufactured signage should follow a horizontal logo lockup above listed sports highlighted in a red bar. This is exclusive to exterior manufactured signage.

In the case of a vertical placement, our Primary (stacked) MonkeySports logo lockup should be used.

Exterior Logos & Placement

HORIZONTAL POSITION

Align the logo in the lower left hand corner of a rectangular hanging sign to achieve asymmetry.

VERTICAL POSITION

Align the icon in the lower center of a vertical rectangular hanging sign to achieve asymmetry.

Common Errors

Do not stretch, squash, skew, or distort the logo in any way.

Do not edit the logo color, use an off-brand color, or reduce the logo opacity.

Do not add graphic effects to the logo, including drop shadows.

Do not place the logo on a high-contrast pattern or busy photograph.

Do not change the layout or relationship between logo elements.

Do not encroach on the required clear space surrounding the logo.

Note: This is not a comprehensive list of errors. These are simply the most common or egregious errors.

Brand Colors

Color sets us apart & helps to invoke emotion.

The colors we've chosen for our brand is a key factor in differentiation and brand recognition.

As such, it is vital that our colors are reproduced faithfully.

MonkeySports Red

PMS 1795C
CMYK: 8, 99, 99, 1
RGB: 219, 31, 38
HEX: #db1f26

Full Black

PMS Black 6C

Typography

We have a font system with clear hierarchy and readability.

Few things communicate the look and feel of a brand more clearly than the way letters, numbers, and symbols are put together. We believe typography should strike a balance between legibility and interest.

This section will cover approved typefaces, the way we use typography to communicate clearly, and some helpful usage tips.

PAGE 16

Primary Typeface

PAGE 17

Body Text

017

Dharma Gothic E

The typeface we chose for all primary brand executions.

Dharma Gothic E

A workhorse sans-serif

Dharma Gothic E is a bold, industrial-style sans-serif typeface characterized by its tall, condensed letterforms and strong geometric structure. It conveys a modern, authoritative feel, often used for impactful headlines, branding, and editorial design where space efficiency and visual strength are important.

Added kerning is recommended for increased readability, especially as font size decreases.

ACCEPTABLE ALTERNATIVES

Dharma Gothic E should be used for primary font-hierarchical brand executions, such as the MonkeySports family of websites or in-store signage. In circumstances where MonkeySports retail store locations have already-established signage, however, Trade Gothic or Open Sans may be used in its place.

Body Text

The root body text size, line width, line height, and tracking are set to enhance visibility and legibility on all screens.

Certain typographic situations specific to digital type like block quotes and text links are also outlined on this page.
